EDUCATION_SNIPPET

Regular maintenance such as alignment and component inspection ensures long-term vehicle safety and performance. Control arm and ball joint replacements are crucial for maintaining proper wheel alignment and suspension system integrity.

OTHER_NOTES

All service work is covered by a nationwide warranty of 24 months/24,000 miles. For inquiries, please call 1-866-588-0728. We appreciate your trust in Performance Tire & Auto.

RECOMMENDATIONS

- Schedule regular maintenance checks every 6 months to avoid steering and alignment issues in the future.
- Monitor vehicle performance and return if any unusual vibrations or noise occur.
- Consider routine tire rotations to extend tire life and maintain alignment.
