

Auto Service Summary

Shop: Performance Tire & Auto
Date: 6/11/2025

Reason For Visit

The vehicle was brought in for an alignment service.

Repair Summary

The repair involved replacing parts in the suspension system and subsequently realigning the vehicle's wheels.

Moderate

- **Control Arms:** These are essential components of your suspension system, connecting the wheel hub and steering knuckles to the vehicle's frame. Two control arms were replaced.
- **Ball Joints:** These are part of the suspension that allow for movement and provide a pivot point for the wheels. Two ball joints were replaced.

Minor

- **Wheel Alignment:** This service adjusts the angles of the wheels so they are set to the car maker's specifications, ensuring proper vehicle handling and tire wear.

- Courtesy Inspection: The vehicle went through a comprehensive inspection to check for potential issues.

Cost Breakdown

- Control Arms (2): \$306.30
- Ball Joints (2): \$260.26
- Wheel Alignment: \$119.21
- Mechanic Labor: \$942.14
- Environmental & Technology Fee: \$3.88
- Job Supplies: \$86.43
- Sales Tax: \$160.65
- Total Cost: \$1,878.87

What Does This Actually Mean?

You visited the shop because your vehicle needed an alignment, likely due to issues like a crooked steering wheel or pulling to one side, which are common signs of misalignment. During the service, major suspension components like the control arms and ball joints were replaced. As a result, you should notice improved vehicle handling and prolonged tire life.

Other Notes

Your service is backed by a 24-month/24,000-mile warranty, which covers the parts and labor involved in this repair. If any issues arise during this period, you can contact the warranty service at 1-866-588-0728.

Recommendations

Regularly monitor your vehicle for signs of misalignment or unusual suspension noises. Consider returning for routine tire and alignment checks during regular maintenance visits to ensure ongoing optimal performance.
