

# Auto Service Summary

---

**Shop:** Performance Tire & Auto  
**Date:** 6/11/2025

## Reason For Visit

The vehicle was brought in due to issues related to the steering alignment. This could include the steering wheel being crooked, the car pulling to one side either at low or high speeds, experiencing vibration at different speeds, or hearing unusual noises like grinding or cycling.

## Repair Summary

- A thorough courtesy inspection was performed at no charge.
- Two control arms and two ball joints were replaced.
- Wheel alignment was conducted to ensure the vehicle drives straight and handles properly.
- Tire and wheel inspection was performed.
- Overall mechanic labor was significant, reflecting the complexity and amount of work done.

## Major

- **Control Arm Replacement:** Control arms are part of your car's suspension system. They help keep your wheels on the road and manage the motion of the wheels relative to your car's body. Two control arms were replaced.

## Moderate

- **Ball Joint Replacement:** Ball joints connect the control arms to the vehicle's wheels and allow for smooth movement. These were also replaced for safety and performance.
- **Wheel Alignment:** This ensures your wheels are set to the optimal position according to the manufacturer's specifications, which is crucial for proper steering and tire wear.

## Minor

- None

## Cost Breakdown

- Control Arms (2 units): \$306.30
- Ball Joints (2 units): \$260.26
- Wheel Alignment: \$119.21
- Mechanic Labor: \$942.14
- Environmental and Technology Fee: \$3.88
- Job Supplies: \$86.43
- Subtotal: \$1,718.22
- Sales Tax: \$160.65
- Total Amount Due: \$1,878.87

## What Does This Actually Mean?

This service was pretty comprehensive. Parts of your car's suspension system, specifically the control arms and ball joints, were replaced. These components are vital for ensuring smooth driving and preventing excessive wear on your tires. An alignment was performed, which is necessary after changing these parts to make sure your car drives straight and handles correctly. The extensive labor reflects the complexity of the work, which requires a skilled technician.

## Other Notes

A nationwide 24-month/24,000-mile warranty covers all the performed service work. This means if you experience any issues related to the repairs within this period, you should be covered. For any warranty inquiries, you can contact 1-866-588-0728.

## Recommendations

- Keep an eye on how your vehicle drives. If you notice any further issues like pulling to one side or vibrations, contact the repair shop.
- Regularly inspect tires and alignments since they can affect your vehicle's safety and performance.
- Keep this invoice and warranty information handy in case you need any follow-up service.
