

Auto Service Summary

Shop: Performance Tire & Auto
Date: 6/11/2025

Reason For Visit

The vehicle was brought in for an alignment check and service.

Repair Summary

- A courtesy inspection was performed for free.
- The control arms and ball joints were replaced.
- The vehicle underwent an alignment service.

Major

- Replacement of two control arms, which are components in the suspension system that help connect the wheels to the frame of the car.
- Replacement of two ball joints, which are key components that allow the suspension to move and help maintain correct alignment.

Moderate

- An alignment was performed to ensure the wheels are set to the manufacturer's specifications for better handling and to prevent uneven tire wear.

Minor

- The courtesy inspection ensured that other components were checked but did not result in any additional repairs.

Cost Breakdown

- Control Arms: \$306.30
- Ball Joints: \$260.26
- Alignment: \$119.21
- Mechanic Labor: \$942.14
- Environmental & Technology Fee: \$3.88
- Job Supplies: \$86.43
- Taxes: \$160.65
- Total Amount: \$1,878.87

What Does This Actually Mean?

Your vehicle required an alignment to adjust the angles of the wheels so that they align correctly with each other and the car's body, preventing strange handling traits and uneven tire wear. During this process, it was identified that the control arms and ball joints needed replacements. These parts are crucial for smooth steering and stable rides.

Other Notes

None.

Recommendations

- Keep a watch on how your vehicle steers and handles; it should now drive straight without pulling to one side.
- Regular inspections and alignment checks are recommended to maintain vehicle handling and extend tire life.
- Remember, the work performed is covered by a nationwide 24-month or 24,000-mile warranty for peace of mind.
